Shehap Ali

Network Security Student

Makkah, Saudi Arabia | +966508206***| shehappp9911@gmail| LinkedIn

---

*Network Security student at Arab Open University. I focus on **Network Engineering and Security** Operations. I build secure networks and use automation to simplify tasks and improve defense. I am ready to manage infrastructure and handle security incidents effectively.*

SKILLS

- **Network & Infrastructure Management:** Configuring and managing routers, switches, firewalls (Cisco, Fortinet), and enterprise networks.
- **Cybersecurity & Threat Detection:** Using tools like Splunk, monitoring networks, detecting and responding to incidents.
- **Scripting & Automation:** Writing Python scripts for log analysis, automation, or security tasks.
- **IT Operations & Support:** Diagnosing technical issues, troubleshooting hardware and software, and providing efficient IT solutions.
- **System Administration & Troubleshooting:** Experience with Linux, Windows servers, network troubleshooting, and maintaining secure environments.

PROJECTS

Certifications

- CompTIA Network+
- CompTIA Security+
- Cisco CCNA (Netacad)
- Certified Cybersecurity Educator Professional (CCEP)
- INE Security eWPTv2
- (Coming soon) CCNP ENCOR

EDUCATION

ARAB OPEN UNIVERSITY   **Mar 2022 – May 2027**
Bachelor's degree, Network & Information Security

COURSES

- **TryHackMe:** SOC 101 (2025)
- **AWS Skills Centers:** Cloud Practitioner (2025)
- **INE Security:** eJPT, eCPPT (2024)
- **Cyberhub.sa:** Penetration Testing and Incident Response (eCIR) (2022)
- **Programming:** Java, Python, basics frontend
